The ideal candidate will have a minimum of 5 years of experience as an environmental consultant in Florida, preferably with experience in transportation projects (both PD&E studies and design permitting). Strong written and oral communication skills required.

### **Responsibilities:**

- Jurisdictional wetland delineations
- Local/state/federal wetland permitting
- Project management
- FDOT PD&E studies
- Protected species assessment and permitting
- Organize and conduct fieldwork activities for wetlands and listed species surveys
- Tree inventories

### **Requirements:**

- Minimum of 5 Years of Experience working as an environmental consultant
- B.S. Degree in one of the natural sciences from an accredited college or university
- Position requires a high level of coordination and interaction with other team members, project professionals, and local, state and federal regulatory personnel
- Physically able to travel and conduct field work on various project sites and meet with clients and occasionally assist in our other Florida office locations
- Must have a working knowledge of wetland science, flora/fauna and ecosystems of Florida
- Authorized Gopher Tortoise Agent a plus
- ISA Certified Arborist with 2+ years' experience a plus
- Proficient with GIS and mapping
- Soil, groundwater and surface water sample collection experience a plus
- Ability to work independently
- Must have excellent communication and writing skills
